Subject: antitrust

Dear sirs,

My name is Franz Hamann, I am a PhD candidate in economics at North Carolina. It has called my attention the fact that a company charged and found guilty of exercising monopoly power to destroy competition is not being punished for the past damage. As I economist, I know, more than anybody else, that a monopoly imposes high costs to a society.

You, at the DOJ, using resources from us (the taxpayers) have failed to the commitment of restoring one of the most valuable assets of America: economic competition. Shame on you!

Franz Hamann
